

Dincwear Pro Leggings Collection

Our Dincwear Pro Leggings are recognised to be the best as proven by our TrustPilot reviews and the stars who wear them – especially the stars of Strictly!

The secret is our unique state of the art DTech fabric. This is breathable, sweat-wicking, squatproof and incredibly soft. It is also very durable so your leggings will keep their shape and colour for years.

Dincwear Pro Leggings are high-waisted and come in 2 different weights:

Our classic best-selling Dincwear Pro Leggings use 400 grams of DTech fabric per square metre.

Our Dincwear Pro Lite Leggings use 250 grams of DTech fabric per square metre – they are 40% lighter than the classic leggings and designed for a hot dance studio or gym.

LITES

On review sites our customers say that Dincwear Pro Leggings are better than Lululemon or Sweaty Betty – and half the price!
